

2011: February

26 I had a marvelous time working with 3rd, 4th and 5th graders during a workshop called “Storytelling Through Film”...we learned about the language of film, animation, persistence of vision, film projection, what happens on a film set, flip books and storyboards...what fun!!

Thanks to all who participated in the February 9 ASCD Webinar on Media Literacy that I hosted. It is now archived and is [available here.](#)
