DVDs and DVD Extras That Help Teach The Language of Film

Copyright 2010, by <u>Frank W. Baker</u> — <u>Media Literacy</u> <u>Clearinghouse</u>

This page is not intended to be an exhaustive, all-inclusive list, but rather a list of some DVDs that I am aware of and have watched that I think could be used in classes where "film literacy" and "film fluency" is being taught. There's nothing like reading a book about film, but viewing, analyzing and deconstructing are best when you have access to films, and extras, that will help your students better understand the languages of film. NOTE: many of these "extras" can now be founded streamed on YouTube.
