

# Is Seeing Believing: Case of the Cottingley Fairy Photographs

## The case of the Cottingley Fairy Photographs

In 1917, two young girls in England claimed to have photographed some fairies. The photographs were the subjects of a major controversy and even a book by the famous writer Sir Arthur Conan Doyle.

NOTE: Even though the photos below look very much faked to our 21st century eyes, you must remember that at the time the photos were taken (1917) many people believed that photographs represented reality.
