

Media Literacy: Word/Phrase of the Week

News & Media Literacy: Word/Phrase of the Week

Each week, I tweet and post on Facebook a word (or phrase) that 21st century students should know and understand. (You don't have to use THIS week's—pick one from the growing list.) I recommend that educators task students with [LOCATING A NEWS STORY](#) which uses that word/phrase; be sure they [understand its meaning](#) and be aware of the word/phrase when they encounter it in the news or popular culture. Feel free to suggest a word or phrase to me by emailing me at fbaker1346@gmail.com
