June 12, 2002 Hollywood, Calif. – The Parents Television Council (PTC), a non-partisan, non-profit, grassroots organization with over 715,000 members, today released its first-ever analysis of the presence of father figures in families on prime-time network television. The study found that 83% of all TV children have some sort of father figure involved in their lives. The study also found that less than half of all TV children live with both biological parents. <http://www.parentstv.org/Main/publications/release/2>
