Students who are media literate are able to deal critically with local and mass media. As with information literacy, media literacy includes the ability to access, analyze, evaluate, and communicate information in a variety of formats, both print and non-print. The media literacy encourages balance by empowering the student to make informed choices, take responsibility as a learner, and as a member of society. Students must use judgment in managing media through awareness, analysis, and evaluation. Media literacy is education for social empowerment. Standard 6500.1001-6506.1001 Awareness: Students will be aware that media literacy as a life skill is integral to modern citizenship, informed decision making, and healthy lifestyles.
